Hi Nancy – thanks again for your willingness to help with scheduling appointments for the Shiloh Church Road residential well sampling and maintenance. Shiloh Church Road is a Removal Site and Chris Wagner is the OSC. Attached is a table list that the previous CIC used to update with the preferred sampling date for the resident. It sounds like sampling is taking place on August 29 and 30, therefore please confirm with the resident which day would be best and mark it in the table. I would also try to confirm if they have a preference regarding morning/afternoon sampling. Lastly, any special instructions for sampling – one resident looks like they allow us to enter through the garage, even if they are not home, while others prefer us to knock on the door first.

As I mentioned yesterday, I will reach out to [Ex: 6 Personal Privacy (PP)] so you can remove her from your list. My recommendation is that if someone has a number I would try reaching out to them first and follow up by email, if necessary. Chris Wagner's number is 804-337-3049 in case you have any questions and want to follow up with her.

Thanks for your support, Nancy! If you want to talk through anything, please let me know.

Chris – to confirm, you would need help scheduling the appointments with residents for maintenance and sampling. And then a confirmation to [Ex: 6 Personal Privacy (PP)] for maintenance?

I found this list in Meg's files. Is it accurate?

Do we usually try to schedule a time for sampling/maintenance on 8/29 or 8/30? Does the resident need to be home? I can get someone to assist, just want to know the proper details. Thanks!

Subject: Next Shiloh Church Road Event

Hi Gina

We would like to perform the next round of maintenance for the Shiloh Church Road Site on Aug 29-30. Our START contractor will also be performing be-annual sampling at this time (with the exception of Ms. Shields)

I see Ex. 6 Personal Privacy (PP) Do you have anyone else available who may be able to help get the appointments scheduled?

Thank you
Chris
